Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviors and attitudes. It helps the team better understand their users and the true problems they are experiencing.

Category	Content
THINK & FEEL	**"I'm worried about being scammed by a fake listing." "I need a place that matches my budget and is close to work." "I feel stressed about the timeframe for moving."**
SEE	**High-priced, unverified listings on social media. Friends struggling to find decent apartments. Opaque rental terms and conditions.**
HEAR	**Friends saying "don't trust every listing you see." Brokers promising unrealistic deals. News about rising urban rental costs.**
SAY & DO	**Spends 2 hours a day on property apps. Asks friends for recommendations. Compares prices across multiple neighborhoods.**
PAIN (Fears/Obstacles)	**Losing deposit money to scams. Uncomfortable visits to unverified properties. Lack of clear communication from owners.**
GAIN (Wants/Measures of Success)	**Quick and secure booking process. Finding a verified and comfortable home. Clear property details and direct owner contact.**

Example:

Empathy Map

What does he THINK AND FEEL?

- what really counts
- major preoccupatiens
- worries & aspirations

What does he HEAR?

- what friends say
- what boss say
- what influencers say

What does he SEE?

- enviroment
- friends
- what the market offers

What does he SAY AND DO?

- attitude in public
- appearance
- behavior towards others

Pain
